

Key Features:

- Managed Daily Operations.
- Patch Management.
- Configuration Assessment.
- Configurations Review
- Threat Hunting.
- Periodic Reports.

The Managed Security Controls Service is designed to entirely manage and operate your organization's security controls and solutions. From patch management and configurations reviews, to threat intelligence implementation and periodic reporting. Through multiple communication channels, we ensure that operations are aligned with your organization's requirements and policies. The MSC Service facilitates the compliance with local and global cybersecurity regulations.
